CR's Take

This Avocado pillow-top model adds 2 inches to the profile of the lower-priced Avocado Green mattress and shares that model's top-notch durability and middling stability. In CR's tests, support for almost all types of sleepers was rated Very Good (large and tall back sleepers will find so-so support), but that's a notch below the original Avocado's first-rate ratings. Another difference: This pillow-top model retains heat, offering you a toastier slumber.
