CR's Take

This high-end cordless Tineco stick vacuum has impressive cleaning ability and many features to boot. An LED panel shows cleaning status information such as battery level and suction power. A sensor detects the amount of debris and adapts the suction power accordingly. You can connect to the Tineco app to monitor cleaning performance. In CR tests, it runs for about 30 minutes per charge on low and 10 minutes on high. This model is similar to the Tango EX but with less extras.

About

The Tineco Pure One S11 is part of the Vacuum Cleaners test program at Consumer Reports. In our lab tests, Stick Vacuums (Cordless) models like the Pure One S11 are rated on multiple criteria, such as those listed below.

**Carpet:** How well models removed surface debris from medium-pile carpet.

**Bare floors:** Denotes removal of surface debris from tile flooring.

**Edges:** How well units picked up debris from where the floor meets walls.
